# CELEBRATING BLACK HISTORY MONTH & THE GREEN BOOK

During segregation and the Jim Crow era in the United States, though all travelers were allowed to cross the country using the highways and roads, travel was dangerous for African Americans. It could put their lives and dignity at stake. Many travelers weren't allowed into businesses, hotels, restrooms, and more. Published from 1936-1966. Victor

### HOW TO KEEP FROM GROWING OLD

Always race with locomotive to crossings. Engineers like it; it breaks the monotony of their jobs.

Always pass the car ahead on curves or turns. Don't use horn, it may unnerve the fellow and cause him to turn out too far.

Demand half the road—the middle half. Insist on your rights.

Always speed; it shows them you are a man of pep even the an amateur driver.

Never stop, look or listen at railroad crossings. It consumes time.

Always lock your brakes when skidding. It makes the job more artistic.

In sloppy weather drive close to pedestrians. Dry cleaners appreciate this,

Never look around when you back up; there is never anything behind you.

Drive confidently, just as the there were not eighteen million other cars in service.
