Finding An Affordable Device

Affordable and Free Computers

Durham

Kramden Institute:

This organization provides technology tools and training. K-12 students are eligible for free desktop computers and low-income adults can apply for low-cost computers (\$30 desktops or \$70 laptops). You can apply over the phone or online.

Email: info@kramden.org

Phone: 919-293-1133

Website: kramden.org

Triangle Ecycling:

This organization recycles old computers and refurbishes them into high-quality machines that are sold at significantly reduced rates. This organization also donates computers to nonprofits.

Phone: (919) 414-3041

Website:

triangleecycling.com/

Nationally

EveryoneOn:

At this website, you search your zip code and be connected to a low-cost internet provider, low-cost or free devices, and free or low-cost digital literacy training in your area. They also sell low-cost devices to everyone.

Technology resources by zip code:

www.everyoneon.org/find-offers

Website: www.everyoneon.org/

PCs For People:

This organization provides affordable computers, internet, and computer repair for qualified low-income individuals and nonprofits. They also sell professionally refurbished desktops starting at \$75 to the community at large.

Website:

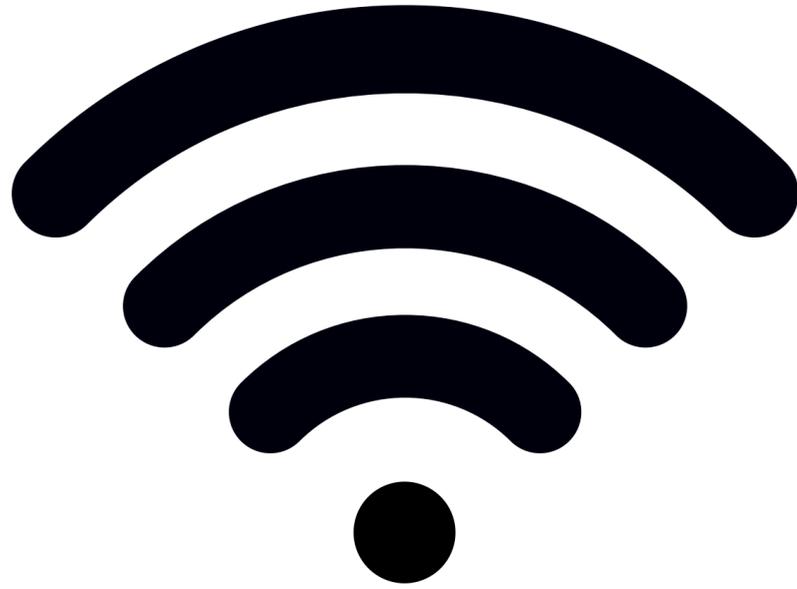

www.pcsforpeople.org/get-technology/

Digital Navigators

Want help finding a computer? Call our digital navigators! This a free program offered by the Durham County Main Library. Call 919-560-0116 to make an appointment. Are you a nonprofit or organization that donates computers? Call the library to be added to our list of resources.

Affordable Internet

Affordable Internet

Affordable Connectivity Program

This is a federally supported program that provides a monthly benefit for households to subscribe to high speed broadband. Qualified households will receive \$30 a month. Households on tribal lands can qualify for a discount of \$75 a month. To see if you qualify, check out their website.

**Apply for the Affordable Connectivity Program:
<https://acpbenefit.org/>**

Free Public Wi-Fi Access Locations

The North Carolina Broadband Infrastructure Office maintains a list of public wifi access locations.

<https://www.ncbroadband.gov/covid-19/wi-fi-locations>

EveryoneOn

EveryoneOn maintains a list of internet providers and nonprofits that offer a low cost internet plan. Not all providers or nonprofit plants will be available in your areas.

<https://www.everyoneon.org/lowcost-offers>

Digital Navigators

Want help connecting to these internet resources? Call our digital navigators! This a free program offered by the Durham County Main Library. Call 919-560-0116 to make an appointment. Are you a nonprofit that offers low cost internet? Let us know!

Supported by grant funds from the Institute of Museum and Library Services under the provisions of the federal Library Services and Technology Act (LSTA) as administered by the State Library of North Carolina, a division of the Department of Natural and Cultural Resources (IMLS grant number LS-249980-OLS-21)

Affordable Internet

Affordable Connectivity Program

This is a federally supported program that provides a monthly benefit for households to subscribe to high speed broadband. Qualified households will receive \$30 a month. Households on tribal lands can qualify for a discount of \$75 a month. To see if you qualify, check out their website.

This benefit can be combined with Lifeline. If you are already a Lifeline subscriber, then you DO NOT need to apply again for the Affordable Connectivity Program

**Apply for the Affordable Connectivity Program:
<https://acpbenefit.org/>**

Do You Qualify?

Want to know if you qualify? Here's a household worksheet that will let you know:

<https://www.affordableconnectivity.gov/wp-content/uploads/ACP-Household-Worksheet-Instructions.pdf>

Find a Provider

Not all internet providers participants in the ACP. However, you can use this tool to enter your zip code and find a provider in your area that does participate.

Do I Qualify for a Low Income Program?

If you are unsure if you qualify for a low income program that provides free laptops or the internet, the best thing you can do is review *their* guidelines and to reach out to the organization and ask. Each program might have different rules for who qualifies, so just because you don't qualify for one does not mean you won't qualify for another. However, below is a current

Poverty Guidelines for the 48 Contiguous States and the District of Columbia	
Persons in Family/household	Poverty Guidelines
For families/households with more than 8 persons add, add \$8,960 for each additional person.	
1	\$25,520
2	\$34,480
3	\$43,440
4	\$52,400
5	\$61,360
6	\$70,320

This information is taken from: <https://files.nc.gov/ncdhhs/HHS-Poverty-Guidelines.pdf>. These guidelines were pulled from 2022 resources and may change. This chart is meant to serve as a starting point. *You may still qualify for some programs. The only way to know your eligibility is to reach out to the organization.*

Digital Navigators

The Shape of A Session

A Flexible Guide for Digital Navigators

Digital Navigators don't simply solve technology problems. Digital Navigators collaborate and support users to become better technology problem solvers.

ESTABLISH THE RELATIONSHIP

Greet the patron & Names. Pronouns. Briefly explanation of how a Digital navigator can help (ie we can help you access free/low cost computers, free/low cost internet, provide gateway digital literacy skills, or refer them to a class/provide resources. Invite them to fill out the intake form.

DEFINE A FOCUS

With the patron pick one to two things to work on for the hour. For example, if they tell you they want a home computer, write down that they want to find a home computer and then begin to work on providing them the resources they need to find a device. If they tell you they want a home computer because they want to do more with online banking and they want to know how to safe online while banking online, work *with them* to narrow the focus of the session. Let them decide on the session's focus. Finding a device, going over online banking, and offering a privacy session could each be an hour session.

COLLABORATE ON THE PROBLEM

Ex. Work together to fill out paperwork for Affordable Connectivity Program.

THE LAST 10 MINUTES

Confirm their questions have been answered. Make sure they have any resources they need to move forward, like handouts or forms. ex) Have we answered your questions today? Anything else you want to discuss?

EVALUATION FORM & INVITATION TO RETURN

Ask the patron to fill out an evaluation form and invite them to return for another session.

Digital Navigators
